AN UPDATE ON AIR SPACE PARCELS

What is an Air Space Parcel? How do you measure one? Is Air Space considered land? Randy Klarenbach, of Richards Buell Sutton, will take some of the guessing work out of Air Space Parcels. He will provide an overview for those unfamiliar with the term as well as get more in depth and show examples of how these parcels can be and are being used in today's development.

This seminar will take place in the Richards Room at the RBS' office on Thursday June 21st. If you are interested in attending the seminar or would like further information, please contact Jill Peters here or by phoning 604.661.9231.
