DAVID HAY, Q.C. QUOTED IN HUB'S SEPTEMBER NEWSLETTER

Bike Lawyer, David Hay, Q.C., has an opinion on approaches the new government could take for increases in auto insurance rates. Read more below. To learn more about HUB or to sign up for HUB's newsletter and receive cycling news and events in Metro Vancouver, [click here](#).

A MESSAGE FROM RBS LLP, HUB PLATINUM MEMBER

There has been much talk in the news about how the new government may remedy the increase in auto insurance rates. One of the options being presently touted is a cap on "minor" soft-tissue injuries. However, any measure to cap compensation at some arbitrary level is profoundly contrary to the interests of the cycling community and does nothing to punish bad drivers who cause injuries and fatalities. [Tell your government](#) to remove bad drivers not legal rights! - David Hay, Q.C.
