## RBS PARTNERS TAKE ON EVEREST!

Each year people from all over the world take on the challenge of attempting to trek to Mount Everest's Base Camp. While some are unsuccessful, RBS Partners Joe C. Chan and Georg D. Reuter were amongst those who were. Everest is the tallest mountain on Earth at 8,848 meters, and it is part of the stunning Himalayan mountain range. Everest's Base Camp is located at a cool 5,364 meters. While Alex L. Eged's travel itinerary did not account for Base Camp, he also trekked nearby to an elevation of over 5,000 meters, and experienced the same sense of accomplishment as did Georg and Joe. Each RBS trekker was proud of their achievement, and commented that it was "a trip of a lifetime"!

Congratulations to Joe, Georg and Alex on their impressive triumph.
