RBS SUPPORTS “DISTRACTED DRIVING KILLS” CAMPAIGN

Distracted Driving Kills is an initiative to bring awareness to today’s dangerous reality on BC’s roads. The BC Coalition and its members have launched this campaign to end distracted driving and to encourage British Columbians to put their phones away, keep their hands on the wheel, and commit to being “present” while driving.

Distracted driving is now responsible for more motor vehicle deaths than impaired driving. For more information about this organization, [click here](#). You can also find a growing list of personal stories and statistics about the devastating impacts of distracted driving in BC [here](#).

Our Personal Injury Lawyers are dedicated to the protection of your legal rights, [click here](#) for more info.
