## ABOUT US

**Founded in 1871, we are the oldest law firm in British Columbia and one of the oldest law firms in Canada. Our librarian tells us we arguably have the coolest collection of old law books of any firm.**

Today, we've benefited from more than 145 years of practising law, developing our knowledge and gaining experience, and also earning the loyalty of seriously long-term clients. By Canadian law firm standards, we sit neatly and intentionally in the mid-sized law firm space. Our lawyers number in the 40s, we boast a dozen or more paralegals, and we are supported by many long-term staff, as well as a loyal hard-working management team.

We are inspired by you, our clients. We understand your legal issue – whether large or small – matters greatly to you, whether you are an individual client with a personal matter, an entrepreneur with a business issue, an executive with a corporate issue or a large institutional client.
